- ★ Jacqueline Nwia, Environmental Scientist, U.S. Environmental Protection Agency
- ★ John C. Taylor, Environmental Engineer, U.S. Environmental Protection Agency

Outstanding Professional Employee: Jacqueline Nwia

Jacqueline Nwia displayed a remarkable combination of creativity, ability, tactful negotiation and dedication in envisioning effective solutions and groundbreaking results without guidance from the Clean Air Act. Her accomplishments have and will continue to shape national, regional and state programs to improve air quality and reduce the public's exposure to toxic air pollutants.
